

Angel On My Shoulder

You know its easy gettin' blue
When you're always in the red
Ain't no room to move around
When you're standing on the edge

CHORUS:

Oh no, no, no
I gotta shake this, can't ya see
If there's an angel on my shoulder
I sure hope she's watching over me

How can you call this living
When the living is this tough?
If there's good luck runnin'
I can't seem to get enough

CHORUS:

Oh no, no, no
I need a new reality
If there's an angel on my shoulder
I sure hope you're watchin' over me

Every two steps forward
Takes me five steps back
Ain't no use in getting' up
When you're gonna fall right back

CHORUS:

Oh no, no, no
I need a new reality
If there's an angel on my shoulder
I sure hope you're watchin' over me
